

Illustrious Classmates,

2023, our legacy class, has invited us and our wives/guests to celebrate Ring Night with them. This message is just a heads up and a **request to let Bill Diffley know you are interested and how many** at [bdiff@icloud.com](mailto:bdiff@icloud.com). The AOG will be sending out a formal "save the date" notice for the Ring Dining Out and Dance in the near future and then a registration notice a bit later.

Date: May 20, 2022

Time: TBD, 1800-ish?

Attire: Military - Mess Dress; Civilian - Formal (tux or business suit)

We've been alerted they would like us to provide photos and bios with registration. We don't know if they will have a format, but I would figure on one page for the bio.

One note about a difference between then and now. After the Dining Out in Mitchell Hall, the cadets and their dates go to A-Hall and get their pictures taken in the big ring at the top of the stairwell in the ballroom, but don't hang around to dance and talk like we did. They stay for 30 minutes or so, then split for various other venues for the rest of the celebration. The "We gotta get outta this place!" sentiment, even for one evening, is still strong. Many will be heading up to Wings Over the Rockies Air and Space Museum at old Lowry (classmate John Barry is the President and CEO). We expect there will be a band at A-Hall for dancing, but few cadets to enjoy it for the entire evening.

If you have any questions, please contact Bill.
