## SAFETY SLOGAN OF THE MONTH

Seat belts wrinkle clothing; windshields wrinkle faces!

"Did you hear about the two AOC's who quit elephant-hunting?  
The decoys got too heavy."

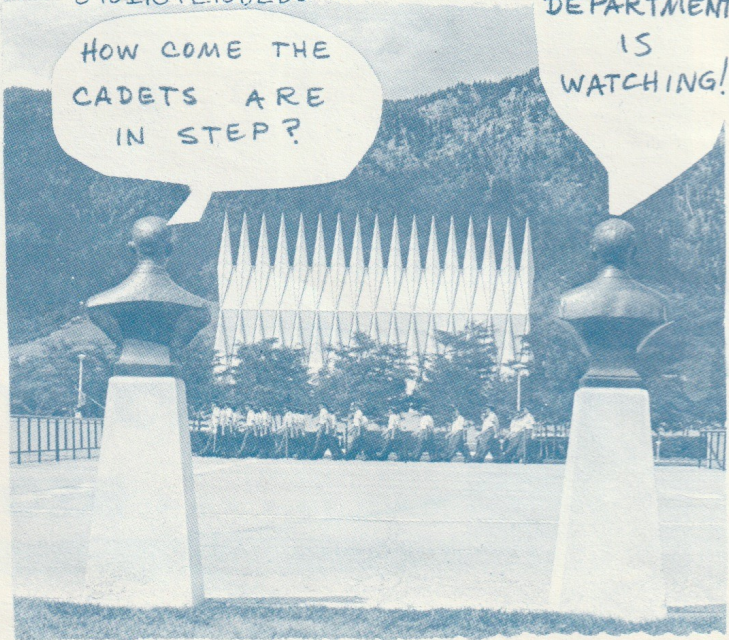

With only 278 days left for the First Class, it's time we embarked on this year's Dodo publications. Our new OIC is Capt Adams CWDS-11 and I hope with his lack of censorship, we can get through <sup>with</sup> a good year. We on the staff would appreciate any Good News, Bad News, hate lights, sick calls, Medical excusals, SI's and other miscellaneous garbage. Just drop your little goodies off at either 3B44 ND, 3G160 D or 6B630D so everyone keep his nose to the grindstone and by the end of the year, your face will look like Hell!

#### ▲ LITTLE HELP FROM THE MAJ

What would you do if I don't shine my shoes,  
Would you go tell the Comm on me.  
Lend me your ears and I'll sing you the Blues  
But you don't you give me a CDB  
I get by with a little help from the Maj,  
Gonna cry with a little help from the Maj,  
Wanna die with a little help from the Maj.

What do I do when the Maj is away  
(does it worry you to be alone)  
How do I fell by the end of the day,  
(are you sad 'cause you're not on your own)  
No, I get by with a little from the Maj.

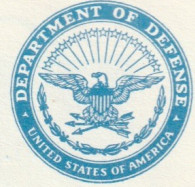

Do you need any connies  
He's got some connies to spare  
Do you need some restrictions  
You'll get them if he don't like you hair.

Would you believe in a first offense zonk?  
Yes I'm certain that it happens all year round.  
What do you say when they give you the bonk?  
I can't tell you but it sure pats them down.

I get by with a little help from the Maj,  
I get sick with a little help from the Maj,  
Get the schtick with a little help from the Maj.

SUBJECT: Poop Sheet # 2 (Further Clarification on Previous Clarification)

TO: All concerned, unconcerned and indifferent

1. A recent incident on communication and coordination of staff functions has been brought to the attention of the undersigned by them and after much consideration to the "bucket of worms" and the "nitty gritty" of the subject matter it has been indicated that, in order to attain a smooth flow of directives to and fro and fro and to the following simple procedures will apply.

XX

2. It will be the responsibility of the individuals initiating a project to insure that those above, below and laterally have been informed of the "new idea". Each staff agency will submit their ideas on the idea. The originator of each "new thought" will insure that the agencies listed alphabetically in pages 61-76 of the USAFA Telephone directory have had an opportunity to provide their two (2) cents (¢) worth. Each agency will submit a report in inverse alphabetical order to the originator. If the originating agency is one whose office symbol falls between A and M it will report on alternate days. Any agency whose office symbols fall between N and Z will report on days alternate to the alternate days of the agencies previously indicated reporting on alternate days. This is of the utmost importance and will insure a smooth laminar flow.

3. Once all the reports have been received by the originator he will type up a first (1st) draft to his project. This first (1st) draft will be circulated to those agencies not submitting ideas on the ~~original~~ original idea for their comments. This routing will be done in inverse proportional fashion to that previously employed. (For a definition of inverse proportion see Smith, Fun and Games with Math, Erotica Press, Tijuana, 1969, pp 1-1678)

4. Upon the completion of this routing it will be duty of the last agency receiving the report to destroy it by the most expeditious means. We recommend a flame thrower.

Sincerely,

SPANISH FLYER, Captain, USAF-Ret

MT-511 or  
Compost Is A Never-Ending Cesspool of  
EXPERIENCE

In its never ending search to find new and novel ways to prepare the cadet for leadership in TMAF (THIS MANS AIR FORCE), the administration (i.e. Wing Staff) has ~~instigated~~ instituted a new non-optional mandatory leadership option: Military Training 511 (ta-daaa.....). The following is a non-lengthy course summary as contained in the HANDBOOK proper:

MT-511: This graduate-level non-optional mandatory leadership option presents the cadet with practical (and exciting) operational skills in traffic control, Escape and Evasion (E.+E.), and hints in how to make friends in 10 easy lessons. A cadet serves duty with a dedicated, experienced and elite members of Academy's own Security Force (S.F.). High-a-top the North Gate Plaza and the South Gate Inn he surveys the onrush of early-~~waking~~ morning traffic to determine how and why thousands of cadets leave the pleasing atmosphere of Academy life to enter the cruel and harsh R.W. (Real world) and make the gallant attempt to rehabilitate these poor unfortunate lost souls.
