Editorial ...

I SUPPOSE YOU'VE ALL BEEN WONDERING WHERE THE Dodo WAS THESE PAST X WEEKS. I SAY "X" BECAUSE I STILL DON'T KNOW WHEN IT WILL BE PRINTED AT THE TIME OF THIS WRITING (3 OCT 73). WE HAD IT READY TO GO AND SUBMITTED A WEEK BEFORE PARENTS WEEKEND ([redacted]), UNFORTUNATELY, THE CENSORS EITHER FIND THE MATERIAL "TOO OBJECTIONABLE", OR "NOT FUNNY ENOUGH". THIS FIRST Dodo HAS BEEN UP TO THEM AND BACK TO US 5 (FIVE) TIMES NOW, AS OF THIS WRITING. THE Dodo YOU ARE FINALLY LOOKING AT NOW (IF EVER) IS ABOUT 20% OF WHAT WAS IN THE ORIGINAL. ADDITIONAL DELAY WAS DUE TO THE STAFF'S LOSS OF INCENTIVE. "WHY BOTHER TO SPEND TIME DOING AN ARTICLE THATS GONNA BE CENSORED" AS A LOT OF THEM HAVE SAID. IT IS TRULY DEMORALIZING TO BE TOLD YOUR WORK "STINKS". WE HOPE

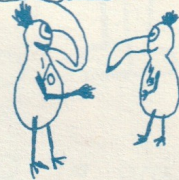

THE WING WILL BEAR WITH US AND TAKE THIS AS JUSTIFICATION OF THE DELAY. THE Dodo IS IN TROUBLE.

As a peeper, I never got anywhere with the chicks, but as soon as I took the lurking course, man, I had to beat them back with a stick!

Here is one of our favorite staffers out for a Sunday lurk

You too can earn cash and fame as a lurker. Send for our correspondence lurking course. Don't just be satisfied with peeping, learn how to LURK, TODAY.

The Dodo[®] revives the ancient Slobbovian art of lurking with a new and exciting contest. Send in a photo of your favorite lurk to CIC Heim CS-06 or C2C URDAHL CS-02. Maybe you'll go to the National Lurking Championship or be a member of the 76 Olympic Lurking Team.

THE GENERAL FINALLY GOT HIS STAR! Yes, that's right &

C/Brigadier Colonel Womack finally got his long awaited star. Of course Wally and C/Major Colonel Rietsema got theirs, too. I guess the new Commandant will have to call the Wing Commander "Sir" now since he's only got one twinkier and the Wing Comm. has two.

Speaking of Comm, welcome to USAFA, Col. Vandenberg. Say, aren't you related to that guy they named that building after, lemme see, what is it's name... Oh yeah, Arnold Hall, right?

Did you hear when 79 will get their 2^o cars? It's really an amazing coincidence, since they get them on the same exact date that "New Look" goes into effect.

We'll guys, now you don't have to dream about going home to see your chick, or go marching tours cuz you tried to sneak her into the dorm. Now all you have to do is just have her apply to her congressman/woman to come here, and she might end up your roommate! It will really be weird with girls here; maybe shower-parties will start living up to their name!

Don't let anyone tell you, you can't learn by osmosis; because the diggers and fillers seemed to have learned the drill manual that way. Next time you stroll through the Air Gardens, check out the trees: they're all dressed and covered, even on the diagonals! They even look like they are sized.

Upon recent investigation, an inquisitive phoner found out that none of the proper departments or agencies, know why that bulldozer is running back and forth across the athletic fields. The diggers and fillers have been promoted from shovels to high machinery!

Well, I've got to go now, my psychoanalyst is calling me: Just can't take the tensions and strains anymore. My strain gages are all reading unlinearly as the Mech boys would say. "If God would have wanted man to join the Army, he would have given them green baggy skin."

SPORTS WE'D LIKE TO SEE*

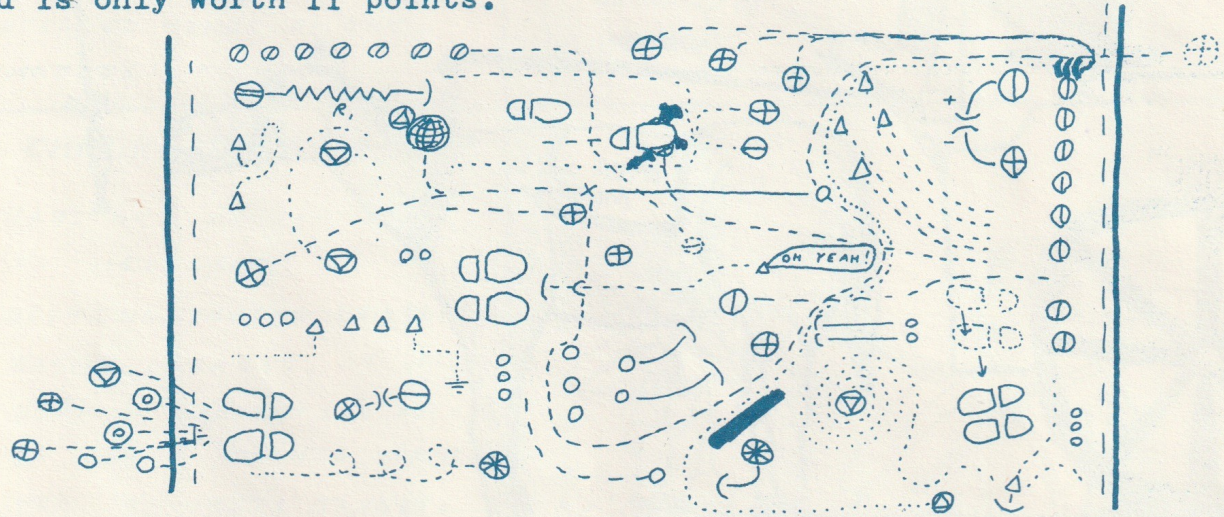

Welcome ladies and gentlemen to another exciting intra-murder game of 43 man squamish here at the United States Air Force Academy. Each 43 man team consist of: the left and right Inside Grouches, the left and right Outside Grouches, four Deep Brooders, four Shallow Brooders, five Wicket Men, three Offensive Nibblings, Four Quarter Frummerts, two Half-Frummerts, One Full Frummert, two Overblats, two Underblats, Nine Back-up Finks, two Leapers and a Dummy. The leapers should perferably be AOC's and the Dummy can be most anyone of your choosing. Each player is issued a baseball bat with which to stopp the opposition from carrying the Pritz(ball) across their goal line. The pritz is approximately ten feet in diameter(roughly the size of a push ball, making concealment quite easy for the larger members of the team.

Play begins when the Probate Judge flips a New Spanish peseta. If the Visiting Captain calls the toss correctly the game is immediately cancelled. If he fails to call it correctly, then the Home Team Captain ia given the choice of either playing the pritz or defending against it. As you will notice the game of squamish is here played on a five sided

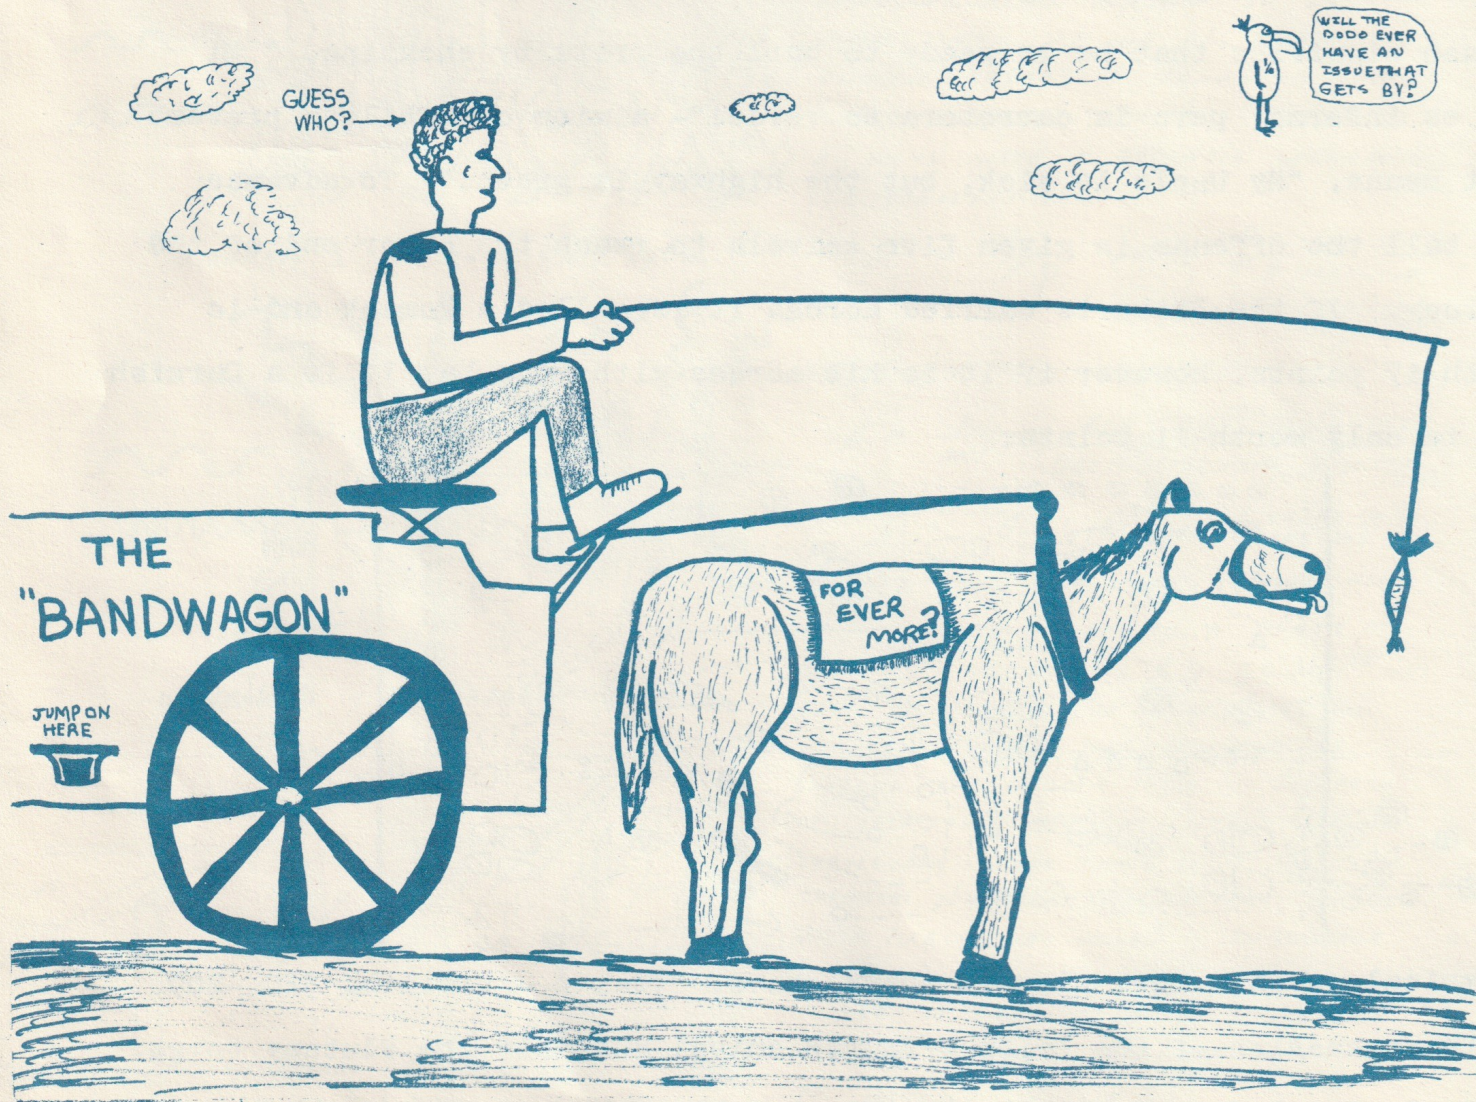

field known as a Flutney. The two teams line up at either side of the Flutney and play Seven Ogres of fifteen minutes each- unless it rains in which case they play eight Ogres. The defending right outside grouch signifies that he is ready to hurl the pritz by shouting, "Mi Tio es infermo, pero la carretera es verde!"- a wise old Chilean proverb that means, "My Uncle is sick, but the highway is green!" To advance the ball the offense is given five snivels to reach the other end of the Flutney. If the Pritz is carried across it is called a Womack and is worth 17 points, however if it is hit across with your bat it is a Durmish and is only worth 11 points.

A typical seventh Ogre play is shown above. Team A - trailing 520 -209 is in possession of the Pritz w/fourth snivel and half the Flutney to go. Suddenly the left underblat going for the big one sends two Shallow Brooders and the Full-Frummert downfield. Obviously he is going for

a Womack when the defense thinks he is going for a Durmish. It is plays such as these which get the fans to their feet and headed for the exits. For those schools whose enrollment is so small [REDACTED] ^{out} [REDACTED], there is a much easier and milder version of 43 man squamish can be played. Two man squamish does not tax the brain nor the student body which makes it quite the sport for many of the big name East Coast schools. The object though in two man squamish is not the same as in the 43 man version for its object is to lose.

WELL THE ASS EVER GET THE CARROT?

Welcome back, all you suckers. Welcome to another year in the emulated halls of the Affluent Society. If you get a chance some weekend, pop on out to Jack's Dustbowl and view the \$63,000 porcelain urinal gig. 9,000 bills per lay-trine, yessiree-bob... and they work just as good if you don't lock your knees or stare at the white. The \$140,000 "cadet club" (in back of Lawrence Paul), if you haven't looked recently, is open. It's a refreshing break from Arnie's, and a half mile further out in the boonies. AN' NOW...for the big bite for 73 (and, natch', their cars)... notice the \$250,000 curb job going up around the Ac-ac. Next time a deer jumps in front of the car it's a choice between overhauling the steering, or venison for the next year... and the first frozen rains spell iccapades at the wheel with the new screwed up drainage. SAFETY IS AN ATTITUDE, right?? (wrong, Safety is an Altitude- the higher you are, the safer you are) Never fear, tho, 74, the diggers have another quarter million or so up their sleeves to rectify the situation.

SIGN THE LIST, PLEASE.

Hokay, everyone, haul out your, uh, USAFA form 0-300 CADET MONTHLY PAY STATEMENT, sub-FIXED AND BUDGET CHARGES, sub-BARBER, and, gasp, why I DO DEclare!! Yes, all of us, regardless of race, creed, of color, are now getting clipped for \$2.50 a month. That's roughly \$10,000/mo. from us to "them". Yet, (PARDON ME, finance dept., but...), it seems that the good barbers have taken a huge cut in pay under the new "per hour" salary. Rumors have it that the Ac. is using our overflow "donations" for research into how to make an officer permanently bald (for less than \$2.50 per month).. At least some of the best things in life are still free... and the DODO is worth every cent you pay for it. Which is more than can be said for the Taloin, who (golly gee, it wasn't their fault) proffered no Sept. issue.

And SERE found themselves sitting under eternal , too. While officers and NCOs wined and dined themselves on steaks, (the leftovers went to the dogs, no lie), cadre was blessed with a heavenly rain of C-rations. What's the difference between C-rations and starving?

Good deal time. Anyone fortunate enough to never have learned how to blow a horn or beat a drum, the USAFA drum and drum (Dumb and Bungle Korps) wants you. On season status with tables that never shut down. You play all the Ac.-ac. hot spots (e.g. the Mitchell Hall Echo Chamber). Scheduling aids and abetts with their usual skill and cunning by providing unlimited rehearsal time, while the choral has been fighting for, and not receiving, just one extra rehearsal night a week. It's comforting to know, however, that the D.&B.C. do contribute something to our small society, like the discovery that the natural rhythm of man lies at 140 per.

Question of the Month: WHY do we still go to "mandatory" chapel. if "mandatory" chapel is unconstitutional. Like, we have committees to enforce every and all genres of spirit: the honor committee begs allegiance to the honor spirit, the ethics comm. insures the Wing of a proper moral spirit, and the GDO checks for weekend spirits. So what Hypocrisy powers this institution: that it will not adhere to the spirit of the Law, the Court of Military Appeals Decision??. Support And Defend, I always say. I guess our orders come straight from God.

THE DODO[®]

DIRTY DEAL OF THE DAY

Due to the extreme time length in getting out our first edition, not only do we have 2 (two) winners, but two champions among winners.

Our First D.D.D.D. got blitzed as is evident. So in emergency session planning, we dreamed up another contest to get this issue in on time and to get you involved with the DODO. Simply send in your suggestions for the next Dodo Dirty Deal of the Day and the best one will get printed, along with your name (unless you really want to remain nameless to the Wing). Sorry for the abruptness, but as the censors say: "That's how the black pen Falls." Try to turn in nominees who contributed greatly to the Wing, not just your roomo for Knifing you in MOM's.
Thank The Management

Our second D.D.D.D. goes to a sterling young man concerned for the health and well-being of all cadets. If not for his gallant efforts and stirring Form 10's the wing would truly be filled with corrupt and shiftless drunkards and no-goods. Above his door at 2nd Gp. hangs the plaque which describes the plight of the demon he hates so:

***"Oh, demon alcohol,
Sad memories I cannot recall
Who thought I would say
Damn it all and blow it all,
Oh, demon alcohol,
Memories I cannot recall,
Who thought I would fall a slave
To Demon Alcohol."

May you never need to worry about an overdose of liquor drowning out your liver at home football games.

MAY WE of the DODodigs take this Opportunity to thank the censors for the invaluable assistance in the dissemination of our fine mag.

Despite the gouges we take at our ethereal black pen bearers, the staph realizes that not everything we write is in good taste. And, as we can only rightly expect, when we transgress the journalistic boundaries of morality, the black pen falls to its appointed duty. Neither are we experienced enough in formal satire to realize what is FUNNY and what is NOT. And the black pen falls. Nor are we upwind enough from cadet life to be able to suck out the real issues of our pseudo-existence at the Zoo. If We the Staph cannot find and criticize the True Faults of the acad. then the DODO should indeed be cloaked in black. And the black pen falls.

Few collegiate publications have the standards of professionalism and conformity with which we are honored. It is Our Hope that, in pursuing our present tack, we catch up to the caliber of the Taloin poste naste, and pass it quickly in our Guided Quest for True Humor.

 WELL, THE Dodo WILL SHOW YOU HOW EACH
 COURSE CAN BE MADE RELEVANT TO CADET LIFE!

THIS ISH...

PHYSICS IS RELEVANT...

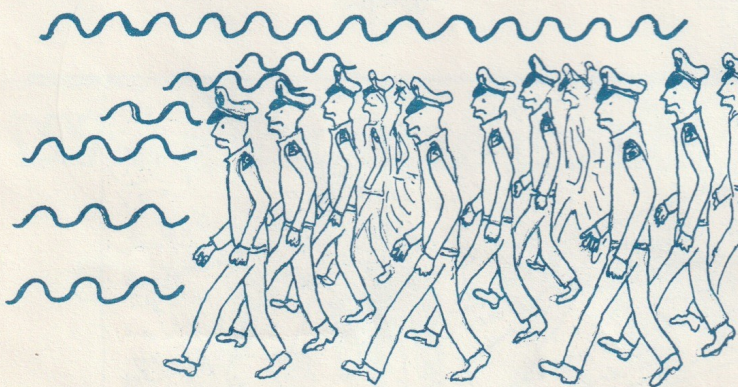

DIAGRAM 1 - COHERENT SQDN.

DIAGRAM 2 - INCOHERENT SQDN.

LET US TAKE THE AVERAGE SQDN. OF CADETS MARCHING TO THE NOON MEAL. BY DEFINITION, EACH CADET WEIGHS 180 LBS. AND IS WALKING AT 120 PER (ASSUMING NO DRUM AND BUNGLER CORPS) TAKING 30 INCH STEPS. NOW, AS WE ALL KNOW, THE FAMOUS DEBROGLIE RELATION ALLOWS US TO EXPRESS MOVING MATTER AS A WAVE WITH A DEFINITE WAVELENGTH. THE FORMULA IS...

$$\lambda = \frac{h}{p} \quad \text{WHERE } \begin{array}{l} \lambda = \text{WAVELENGTH} \\ p = \text{MOMENTUM} \\ h = \text{PLANCKS CONSTANT} \end{array}$$

SINCE $p = mv$, WE HAVE ...

$$\lambda = \frac{h}{mv} = \frac{6.63 \times 10^{-34} \text{ JOULE-SEC}}{(180 \text{ LBS})(120 \text{ STEPS/MIN})(30 \text{ IN/STEP})}$$

$$\lambda = 5.4 \times 10^{-36} \text{ m} \quad (\text{CHECK IT AND SEE})$$

THUS, A SQDN. MARCHING TO THE NOON MEAL IS EQUIVALENT TO A BURST OF QUANTUMS EACH WITH $\lambda = 5.4 \times 10^{-36} \text{ m}$. THIS LIGHT WILL, OF COURSE, BE NOT COHERENT UNLESS THE SQUADRON IS DRESSED AND COVERED WITH AN ACCURACY OF LESS THAN 10^{-36} m , WHICH IS REALLY IRRELEVANT SINCE THEY'D BE AT THE PRESIDENTIAL INAUGURATION, NOT HERE, IF THEY COULD MARCH THAT WELL!. (SEE DIAGRAMS 1 AND 2).

LET US NOW SET UP A DIFFRACTION GRATING ON THE TERRAZZO ON THE WAY TO MITCHES (DIAGRAM 3).

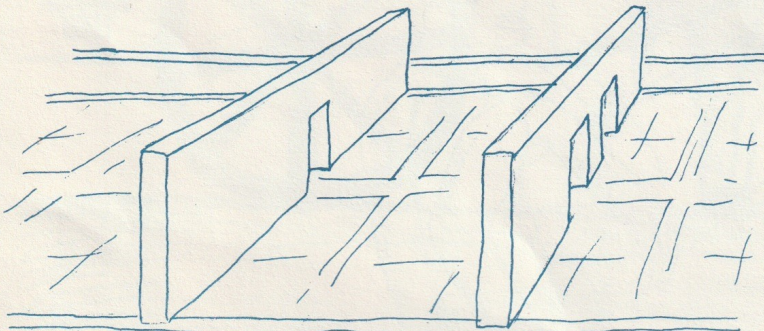

DIAGRAM 3 - THE DIFFRACTION GRATING

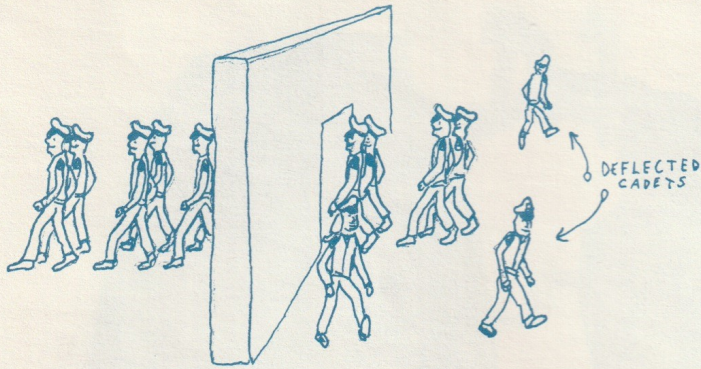

DIAGRAM 4 - FIRST SLIT DEFLECTING CADETS AND NARROWING BEAM

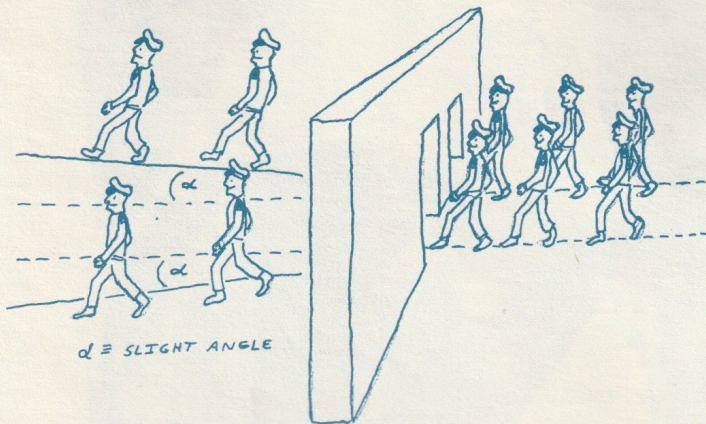

DIAGRAM 5 - DOUBLE SLIT AS IT DIFRACTS NARROW BEAM OF CADETS

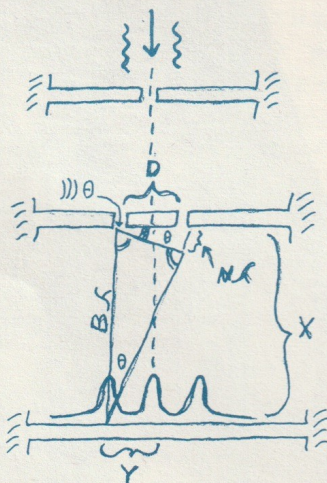

DIAGRAM 6 - GEOMETRIC ANALOGY

THE FIRST SLIT WILL BE ABOUT 1 FLT. WIDE. THIS SLIT WILL SERVE TO ALLOW ONLY A NARROW BEAM OF CADETS TO PASS THROUGH, OTHERS BEING DEFLECTED. (SEE DIAGRAM 4). THE BEAM OF CADETS WILL THEN IMPINGE ON A DOUBLE SLIT CAUSING THEM TO DIFRACT (SEE DIAGRAM 5) AT A SLIGHT ANGLE. NOW, GIVEN THAT THE DOUBLE SLIT IS A DISTANCE X FROM THE MITCHELL HALL DOORS AND THAT THE DOORS CENTERS ARE 2 METERS APART, WE CAN ARRANGE FOR THE NODES AND ANTI-NODES OF CADETS TO FALL SUCH THAT THE CADETS WILL PASS EXACTLY THROUGH THE DOORS AND ON INTO MITCHE'S. DIAGRAM 6 EXPLAINS HOW WE WILL DETERMINE THIS DISTANCE. ON CAREFULL EXAMINATION WE SEE THAT

$$\frac{N\lambda}{d} = \sin \theta \quad \text{AND} \quad Y = (\tan \theta) X$$

$$\text{USING } \tan \theta = \frac{\sin \theta}{\pm \sqrt{1 - \sin^2 \theta}}$$

WE GET...

$$X = Y \left[\frac{\pm \sqrt{1 - (N\lambda/d)^2}}{N\lambda/d} \right]$$

INSERTING APPROPRIATE VALUES WE GET...

$$X = 2 \left[\frac{+ \sqrt{1 - \left[\frac{(1)(5.4 \times 10^{-36})}{3} \right]^2}}{(1)(5.4 \times 10^{-36})} \right]$$

OR...

$$X = 1.1 \times 10^{36} \text{ m}$$

SINCE THE DOORS MUST BE THIS FAR FROM THE DOUBLE SLITS, THE FEAT COULD BE ACCOMPLISHED BY MARCHING AROUND THE TERRAZZO 1.45×10^{33} TIMES. THIS WOULD TAKE ABOUT AS LONG AS THE AVERAGE HAIRCUT INSPECTION. Q.E.D.
